

PLEASE CHECK YOUR CAR BEFORE ORDERING

*This is the first step you should take after you purchase the car!!!
You will notice that we do not carry master cylinder "kits" or wheel
cylinder "kits" - Don't trust your brakes on a "kit"!!! These are new
- not rebuilt - "Quality" parts - Remember, you get what you pay for-
This is one area you do not want to scrimp on.*

1963-66 14"X7" wheel minimum - bolts to original spindle - kit includes rotors, calipers, master cylinder, flex hoses and all necessary installation hardware - Incl. new front heavy duty hubs. A120-4..... 895.00

REAR DISC BRAKE CONVERSION KITS

123 piece kit employs 1984-86 Mustang SVO rear calipers with integral parking brake mechanisms and unidirectional vented rotors to completely upgrade your stopping power with a 4 wheel disc brake system. The entire project using our kit, complete with full instructions, can be accomplished in approximately 8 hours, without special tools, cutting or welding. A companion kit for the 9", 31 spline rear axle, using 1/2" diameter bolts for the housing flange (instead of 3/8" for the standard kit) and matching mounting brackets, is also available from stock. Be sure to specify axle size when ordering. Calipers with stainless steel pistons are available as an option. All parts are new; no core exchange is required.
 1963-70 A111-2..... 825.00
